Industry Supported Events

Industry Supported Events are educational events coordinated by third-party medical education organizers that are often supported by industry grants. While held in conjunction with SLEEP 2010, these events are not part of the scientific program that is coordinated by the APSS Program Committee. Industry Supported Events are scheduled around the daily scientific program. More information is available on the official SLEEP 2010 meeting Web site at www.sleepmeeting.org and will be included in the SLEEP 2010 Final Program.
